SUMMARY

Data Analyst Intern with solid foundation in SQL, Python, and Google Cloud platforms. Experience designing ETL pipelines in BigQuery and building interactive Power BI dashboards for real-world datasets. Delivered a proof-of-concept AI chatbot using Vertex AI to streamline client reporting. Ready to apply analytical and cloud expertise to support data-driven decision making in a Data Analyst or Business Intelligence role.

EDUCATION

Arizona State University (ASU)

B.S. Computer Science

2023 - 2026

Tempe, Arizona, USA

• **GPA:** 3.56

• **Achievements:** Dean's List for 2026 Spring, 2025 Fall, 2024 Fall and 2023 Fall Semesters

TECHNICAL SKILLS

- **Languages:** Python, SQL, Java, JavaScript, C/C++, Bash
- **Visualization & Analytics:** Power BI, BigQuery, PostgreSQL, R, ggplot2, plotly, dplyr
- **Cloud & AI:** Google Cloud Platform (BigQuery, Compute Engine, Cloud Storage), Vertex AI, AgentSpace
- **Tools:** Git, GitHub, Linux/Unix, Microsoft Office

WORK EXPERIENCE

Sturge-Weber Foundation

Sep 2025 - May 2026

Software Engineer

- Engineered a native iOS version of an existing Android medical application using Xcode and Swift, ensuring full feature parity for pediatric neurology care.
- Refactored and enhanced the original Android application using Android Studio (Java/XML), integrating new features and UI overhauls to achieve production-grade readiness.
- Advanced the app into rigorous testing phases using Android Studio's automated test suites and Git for version control, preparing it for public launch

Cloud Space

Jun 2025 - Aug 2025

Data Analyst Intern

- Built and maintained ETL workflows and SQL queries in BigQuery on Google Cloud Platform, creating a cloud data warehouse that streamlined client reporting and reduced data preparation time
- Developed a proof-of-concept AI chatbot with Vertex AI and AgentSpace, enabling client demos that illustrated automation potential and generated interest for further development
- Assisted in organizing and transforming client datasets using BigQuery and SQL scripts, preparing data for cloud analytics and reporting, which improved data accessibility for the team

PROJECTS

COVID-19 Analytics Dashboard (Power BI)

Apr 2026 - May 2026

COVID-19 Analytics Dashboard (Power BI)

- Built an interactive Power BI dashboard using COVID-19 datasets from Our World in Data
- Created KPI cards, trend visualizations, geographic analysis, and filtering capabilities for country-level comparisons
- Performed data cleaning and transformation using Power Query

COVID-19 Data Dashboard (D3.js)

Feb 2026 - Apr 2026

- Developed an interactive web dashboard using JavaScript and D3.js to visualize global COVID-19 trends
- Implemented dynamic charts and country-based filtering for exploratory analysis
- Worked with real-world datasets containing cases, deaths, and vaccination metrics

Spotify Wrapped Analysis

Feb 2026 - Mar 2026

- Analyzed trends across Spotify datasets using R, ggplot2, plotly, and dplyr to compare characteristics of 2025 hits against all-time popular tracks
- Created interactive visualizations to identify patterns in popularity, genre, and audio features

ACHIEVEMENTS

- **ASU Badminton Club:** 4-8th place (Quarter-finals) in Birdies' Cup (2023 Fall)
- **President (American University Program, INTI College):** Program leader and organizing chairperson of AUP events; Organized INTI's first in-campus event (July 4th Barbeque) and first off-campus event (Homecoming Night) after COVID-19 pandemic
